From Information Age Publishing : Career Counseling Across the Lifespan: Community, School, and Higher Education (Issues in Career Development Book) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Career Counseling Across the Lifespan: Community, School, and Higher Education (Issues in Career Development Book):

1 of 1 people found the following review helpful. Five StarsBy J. DeCarloExcellent writing, excellent text. This should be required reading in every counseling program.

A volume in Issues in Career Development Book Series Edited by Grafton T. Eliason, John Patrick and Jeff L. Samide California University of Pennsylvania Career Counseling Across the Lifespan: Community, School, and Higher Education is the latest volume in the Issues in Career Development Book Series, edited by Grafton Eliason, John Patrick, and Jeff Samide, from California University of Pennsylvania. The purpose of Career Development Across the Lifespan is to provide a broad and in-depth look at the field of career development as it applies to individuals involved in all areas of community counseling, school counseling, and higher education. The book will examine some of the field's major theories, themes, approaches, and assumptions using the writings of a variety of regional and international experts. Specific emphasis is spent examining issues reflective of today's challenges in developing and maintaining a workforce that is diverse, flexible, and efficient. Readers will be provided with an action based framework built on the best available research information. This text book is truly the culmination of 8 years work, compiling comprehensive studies from three previous volumes and updating key concepts in career counseling with the most contemporary theories and innovations. We examine three primary domains of career counseling throughout all of the developmental stages of the lifespan: community, schools K- 12, and higher education. We include a specific focus on career history and theories, to prepare students for both the counseling environment and for national exams leading to certification and licensure, such as the (NCE) National Counseling Exam. We also include cutting edge research on contemporary topics, including such areas as: military careers, life after the military, athletics, individuals with disabilities or special needs, career counseling in our current socio-economic environment, and current technologies such as virtual counseling. In addition, we have added case studies and key terms as study guides at the end of each chapter. We are fortunate to include many recognized experts in the field of career counseling. Career Counseling Across the Lifespan: Community, School, and Higher Education is a comprehensive text, written to address the broad needs of career counselors, educators, and students today.
