Dale Mayer : Career Essentials: The Resume before purchasing it in order to gage whether or not it would be worth my time, and all praised Career Essentials: The Resume:

3 of 3 people found the following review helpful. Just in timeBy LoraI need to get a job after a break in my professional career. How to update, and make new and relevant, a rather staid and boring resume was a challenge. Finding this book was simply miraculous. It gave me clues of what mistakes NOT to make and how to present my CV

in an eye-opening manner. The icing on the cake was getting it free..... Thank you Dale Meyer and / Kindle0 of 0 people found the following review helpful. More of the sameBy mcmahonashleyIt is ok but is basically just a look at resume content and format with none being particularly different from what is in many other books. If you are new to the whole resume concept it may be helpful but if you have experience the resume and job search process, not so much. In many ways just too repetitive. I had the Kindle version and for some reason every few chapters you would encounter all of this formatting info (header, margin, indent, etc) and then the next page would move you back two or three paragraphs. Very frustrating!0 of 0 people found the following review helpful. No Useful Advice from the Author's Own ExperienceBy Teruo AraiThe book only explains about resume. For readers, we need to hear how actual employers think about resume and what's solution to address such concern from the employers.

In our current economic conditions, job hunters are struggling to attain the 'perfect' job. The Internet has made job hunting easier, but has made getting the job actually harder. It's so easy to apply for jobs today that employers are overwhelmed, often receiving thousands of applications per job opening. Somehow, you have to make sure your application rises to the top of this pile. How? Through your rsum - it's the single most powerful marketing tool you have to showcase your skills and accomplishments. That's what this book is all about. It shows you how to create the best rsum for you and the job you are applying for. There are chapters on the different rsum formats and how to choose the appropriate one for your situation. There's a chapter showing you what belongs in each section of the resume and there's even a chapter on how to showcase your skills in the most powerful way. There is a section on mistakes to avoid and tips for dealing with any problematic areas. Underqualified? Overqualified? Each of these issues and many more are addressed in this book, as is a rarely discussed security issue from posting your resume all over the Internet. There is also a chapter on the power of words that will help you to maximize your writing to make your rsum the most powerful selling tool possible. Even better all this information is presented in a straightforward style that makes this book easy to read and the instructions even easier to follow. Isn't it time you seek out the next step in your life?

About the AuthorFreelance researcher and technical writer, Dale Mayer lives in the beautiful Okanagan valley in British Columbia, Canada. She's multi-pubbed in nonfiction and is currently writing The Essential Series including The Career Essential Series(The Resume, The Cover Letter, The Interview), Lifestyle Essentials (Ergonomics for today's world, Raising the dyslexic child, etc.), and the Gardening Essential Series, (Beginning with Bulbs, Urban Farming, Gardening for Seeds, etc.). For the last decade, she's written on all of these topics either under her own name or as a ghostwriter. As a researcher and technical writer, Dale has a wealth of knowledge she can't wait to share! However, fiction is her passion. Here, she writes taut psychological suspense with romance and paranormal elements. She has recently branched out into writing both mystery and urban fantasy books for young adult with the occasional vampire book thrown in just for fun.
