**Duane Brown : Career Information, Career Counseling, and Career Development (9th Edition)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Career Information, Career Counseling, and Career Development (9th Edition):

1 of 1 people found the following review helpful. Would have given 0 stars if possible By P. Manley This is absolutely the worst textbook I've ever had to use-- and I'm middle aged and read a LOT of textbooks. It is very badly written and difficult to read. The author uses two or three pages to say what could have been easily condensed into two sentences and made much more sense. Since this was an assigned book, I had/have no choice but to use it---if you have a choice DON'T.UPDATE: So the semester is over and I still think this is the most un-readable textbook in history. Most of my

classmates said the same. I'm glad I was not dependent upon this author to help me understand the subject matter. I cannot stress enough how badly written this book is--and I've never met a textbook I didn't like. 0 of 0 people found the following review helpful. Five Stars  
By Mira Walker  
Great Book

Wrong book  
By Putrina Footman  
Unfortunately, I received the wrong book and ultimately had to reorder from a different company. I received a different book with a different bar code.

Career Information, Career Counseling, and Career Development is a comprehensive, up-to-date text written by a leading expert in the field. This new edition contains a stronger emphasis on technology and on cross-cultural issues, and has an increased emphasis on application. As in previous editions career development theory, career information, career counseling practice, and career development programming are all covered in extensive detail. The text carefully describes the process of finding and securing jobs in an electronic era and presents students with the trends that are shaping the workplace today and those that will continue to influence their careers over the next decade. However, this edition has a decided emphasis on multicultural career counseling. Also chapter on schools has been totally rewritten to correspond to the ASCA National Model.

The text is internationally known as the Bible of Career and Vocational Training. Any enhancement to the text would be icing on the cake. ~ Bill Bauer, Marietta College  
The textbook offers a comprehensive view of career counseling for the counseling students as well as the professional career counselor/specialist. The content is readable for the student and beginner counselor as well as the seasoned counselor. ~ Karen Rowland, Valdosta State University

The textbook offers a comprehensive view of career counseling for the counseling students as well as the professional career counselor/specialist. The content is readable for the student and beginner counselor as well as the seasoned counselor. Karen Rowland, Valdosta State University  
Now in its ninth edition, Career Information, Career Counseling, and Career Development is a comprehensive, up-to-date text written by a leading expert in the field. Author Duane Brown addresses career development theory, career information, career counseling practice, and career development programming in extensive detail, also discussing practical use of current theories and how they are applied to specific cultures and ethnicities. This accessible text is replete with essential references as well as helpful tips about using the Internet in career counseling. Features new to this edition include -A stronger focus on technology, cross-cultural issues, and theoretical application. -A new chapter on ethics in career counseling and additional emphasis on postmodern theories. -A chapter on schools that has been revised substantially in accordance with the ASCA National Model. -An extended how to section on using O\*NET and ASVAB career exploration systems.
