1 of 1 people found the following review helpful. Basic, juvenile information By Allison Not as detailed as I would hope. As a twenty-something professional looking to change careers, I did not find anything of value here. Just brief mentions of fields you would already be aware of - zookeeper, marine biologist, groomer, pet store owner, etc. I was hoping for more detailed info about specific school required for the science-based fields like wildlife conservation, not

store entrepreneurs. 1 of 2 people found the following review helpful. Bought this for a gift By British Mystery Buff I bought this book for a 14-year-old who thinks he wants to be a veterinarian. I thought it might be helpful to him. I looked through it before wrapping, and it seems to be thorough on the subject and readable. 1 of 2 people found the following review helpful. Very nice By Laura C Book is for my niece - future vet - book outlines great alternatives to just a clinical vet practice - perfect shape!
