Foreign Language Aficionados broadens perceptions of one's options.By Andrew P CoxI like the book for its touch on subjects concerning a broad array of options for those who love languages. The book will change you life for the better if you have that sort of passion. Unfortunately, the book doesn't bridge the gap of possibility for the reader so he or she must fill in some of the blanks. However, the book does provide stepping stones in providing contact information. Overall, the book is a good resource and is a worthwhile investment.0 of 0 people found the following review helpful. This Book Is ExcellentBy Larry DayOur nation is becoming multicultural and bilingual. There are few resources available that take a PRACTICAL approach to the reality out there in the world. This book is excellent because it presents practical material in a way that maximizes the value of the information. Then the book adds references that are also valuable. I haven't seen a third edition. Is there one?0 of 0 people found the following review helpful. Perfect Condition - Fast TurnaroundBy Alexandra FrancoisBook was in perfect condition.
