Cheryl McLean, C. McLean : Careers for Shutterbugs and Other Candid Types (Vgm Careers for You) before purchasing it in order to gage whether or not it would be worth my time, and all praised Careers for Shutterbugs and Other Candid Types (Vgm Careers for You):

8 of 10 people found the following review helpful. Well written photography book...By CMPT'm considering turning a hobby into a career, and so don't know how professional photographers would rate this book. I thought it was very informative and readable, and especially liked the numerous references and addresses for getting additional information on a particular topic. Chapters include careers in photojournalism, advertising, freelance, travel, government, and medical photography. The book also discusses digital photography, the internet, and the fact that current technology is changing how photographers do their jobs.

Describes careers in photography, including photojournalism, and portrait, commercial, nature, travel, industrial, scientific, and government photography.

From the Back CoverDo you feel more comfortable behind a camera lens than in front of it? Are you the "official" photographer at family get-togethers? Then you are a shutterbug, a person who likes to document our world in pictures. In *Careers for Shutterbugs*, you will find out how a passion for photography can earn you a healthy paycheck (and probably free film). Here you will read how shutterbugs: Capture special moments in people's lives Tell a news story in pictures Inspire our imagination with their art Unravel medical mysteries with their images Provide the visual part of advertising . . . and more! Inside, you'll find all the information you need on salaries, working conditions, and opportunities for professional advancement. Written for newcomers and career-changers alike, *Careers for Shutterbugs* will show you the way to happiness behind the lens.About the AuthorMcGraw-Hill authors represent the leading experts in their fields and are dedicated to improving the lives, careers, and interests of readers worldwide
