Lee Jackson : Careers in Focus--Family and Consumer Sciences: Student Activity Guide before purchasing it in order to gage whether or not it would be worth my time, and all praised Careers in Focus--Family and Consumer Sciences: Student Activity Guide:

0 of 0 people found the following review helpful. very, very goodBy Dianna Dance LewisIt was user friendly and content of this book was great. The information was written clear concise .An asset to a new teacher or old teacher needing some new ideas.3 of 5 people found the following review helpful. Take charge of your life - explore your options!By Lee JacksonHighlighting actual professionals working in the field of family and consumer sciences (home economics) was the most interesting part in writing this book. Through the many profiles, it is evident that the careers in this field are extensive and interesting. They include the occupations of teaching and education but much more. For

example, the traditional subject areas (foods and nutrition, clothing and textiles, child development, housing and interiors, human relationships, health and family living) are explored in each of five career fields: business, education and communications, human services, science and technology, and the arts. The pros and cons of entrepreneurship and types of businesses that lend themselves well to self-employment are included. In addition to spotlighting actual careers, thirteen chapters cover general career education information, such as choosing a career, developing skills for job success, and finding and keeping a job. These chapters incorporate the skills that employers look for in new employees. Careers in Focus - Family and Consumer Sciences is a textbook intended for secondary study, as well as vocational and technical education studies. However, its information is specific to anyone who is choosing a career, finding a job, and/or wanting to be successful in the workplace. My background is in education. I have taught in Missouri and Wisconsin schools for over 25 years. My special interest in the field of family and consumer sciences has inspired me to write several cookbooks and guides to nutrition and physical fitness. May this book inspire you to choose a career that will be right for you!

A unique, timely text for the continued growth of the field of family and consumer sciences. Highlights career profiles of successful professionals in various occupations and emphasizes the skills necessary for job success. Softcover.

From the Author This book helps you understand yourself and your career goals. Finding a satisfying career begins by identifying your personality traits, interests, aptitudes, and skills. Knowing what to look for in a career and where to find career information is a key step. You will learn what skills are necessary for job success and how future job trends can affect you. Having effective job-seeking skills helps you get ahead in the world of work. From the Inside Flap Careers in Focus: Family and Consumer Sciences offers guidelines for succeeding in the world of work. It surveys key careers and shows how to develop job skills to achieve success in any field. You will also look at how work impacts individuals and families. From the Back Cover Reading this book will help you make decisions about your future education and career plans.
