I've been wanting to translate some German songs and progress even more in the German language as well. So as soon as this book came to my house I immediately began looking through the pages and translating. If you don't mind small text, then everything is easy to read and few pages smeared but it's nothing bad. I can read every word written pretty clearly. And there are some verb and number charts in the back too which can be helpful. I can tell that I am going to be using this book a lot for as long as I have it. This product is definitely worth more than the great price is got it for.1 of 1 people found the following review helpful. Excellent book!By R. NovickWhen I studied Spanish in high school and college, I used my Cassell's dictionary all the time. It includes helpful phrases, verb tenses, and irregular words. The German version of this dictionary is just as good. I used it to communicate with my aunt, who speaks very little English. Don't waste your time or money on other translator dictionaries--this is the only brand to buy!0 of 0 people found the following review helpful.
