**Harold T Betteridge : Cassell's Standard German Dictionary** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Cassell's Standard German Dictionary:

3 of 3 people found the following review helpful. Great for German Genealogy Transcriptions By V. O. Ritter I

transcribe and translate a lot of 19th century church records and civil documents as part of my genealogy hobby. Ernest Thode's German - English Genealogy Dictionary is my main resource for everyday use, but when something unusual ( and therefore very interesting ) comes along, I need the added vocabulary found in Cassell's German-English, English-German Dictionary. Other reviews mention this dictionary is out of date, but for my purposes, that is a feature, not a drawback. The English to German section is helpful if I suspect the meaning of a phrase, but can not read the old German script. By back-translating, I can often decipher the words in question. I also like the list of common abbreviations and the table of conversions for weights and measures in the center of the dictionary. The black page edging makes this section easy to locate and use. I'm glad I bought this dictionary, and recommend it to others. 2 of 2 people found the following review helpful. The best dictionary for college and graduate students By Lisa This dictionary is a tome. It's definitely not something you'd want to lug around traveling. For academic research, though, it's the best I've found. I used it as an undergrad and sold it, then bought another copy ten years later for my phd. I'm just as impressed with it now as I was a decade ago. In addition to the sheer number of words it covers, it is particularly helpful for looking up metaphors and idiomatic expressions. 0 of 0 people found the following review helpful. AWESOME By Crystal Excellent quality! Easy to read and has all the words that I look up.

This thorough revision of Cassell's long-renowned German Dictionary incorporates recent developments in English and German to bring it completely up to date, and supplies more idiomatic phrases and illustrative examples than ever before. This new edition is over 300 pages longer than the previous edition. Gives phonetic translations of German keywords and has a key to German pronunciation. Indicates whether German verb prefixes are separable or not. Has a bibliography of technical and specialist dictionaries. Includes proper names in the main text. Has a new clearer lay-out with entries in strictly alphabetical sequence.
