THE INFORMATION A PARENT NEEDS REGARDING THEIR CHILDS HEALTH, A CAT LOVER NEEDS FOR THEIR FUR BABIESBy Robin Leigh MorganI read this book via a KINDLE Unlimited download.Unfortunately my dear OH and I have no children and due to where we live, were not

allowed to have any dogs. So instead, we had two fur cat babies. I knew enough that in adopting a cat you don't pick the cat, you have the cat pick you. I need that you can't adopt one because of how cute it looks, because afterwards they might become aloof in their interactions with you. But by allowing yourself to see how it interacts with you, by bumping its head against your hand telling you it wants to be scratched the cat is telling you to pick it. Cats have a unique ability of sensing who they like. Just like a parent being interested in taking care of their child, us cat lovers are interested in making sure that our small fur children are taken care of and remain healthy. If there was ever a bible in helping us meet that goal, this book would be that bible as it basically covers the soup to nuts with the information it provides in a very organized manner. Parents know when their child behaves a certain way they're trying to tell us something, the same holds true when it comes to cats, we just need to know what each kind of behavior might mean. At times we might overreact when something appears to be wrong with our cats, when in fact it's actually nothing with a nothing. We need to know about things we can do to prevent things from happening to them, and if there's any holistic way in dealing with the situation at hand. With this type of information and more this book should be in the library of every cat lover so they can adequately take care of the ones in their family which is why it has gotten 5 STARS from this reviewer and the parent of the two fur children in our family. 1 of 1 people found the following review helpful. A Must Have for Every Cat Owner's Keeper Shelf By M. Lapierre Some books are destined to stay on your "keeper shelf" forever. One such title for me is Amy Shojai's "Complete Care for Your Aging Cat". I think my copy must be a first edition because I've had it for years and years and it has proven to be an invaluable resource to me throughout my last few cats' senior years. "Cat Facts: The A-Z Pet Parent's Home Care Encyclopedia" is another title that will remain on my keeper shelf for as long as I'm a cat mom. In other words, forever. It covers every medical and behavioral issue you can possibly think of in alphabetical order with symptoms, first aid, home care, holistic help (LOVE THIS FEATURE!!!), vet care and prevention. I've actually already had the opportunity to use it when I started to suspect that my cat's "hairball issue" might actually be asthma. While initially appearing to be a reference guide, this book is so, so much more. Color photographs, graphics and charts accompany the text along with cross references in an easy-to-read and understandable format. It might not be a book that you read cover-to-cover (although many of us interested in "all things cat" may very well do that), it's a book to always have within easy access for when an issue occurs. And pet owners know, things often "pop up" when you least expect it so it's important to be prepared. I have tons of cat care guides in my home and this is without question the most well-researched and comprehensive title I've found. You owe it to your cat to add it to your library today! I received an ARC from the author for an honest review. 1 of 1 people found the following review helpful. One Stop Book for Cat Facts By Paula Gregg This is the second informational book about cats that I've read from Amy Shojai; the first being Complete Kitten Care. I've had cats for 40+ years, but still don't understand everything about them. I tend to inhale webpages and blogposts about cats, trying to find out more, but it's so much work. That is, until I found Cat Facts: The A-to-Z Parent's Home Care Encyclopedia. I know there are a lot of books out there that give you facts about cats, but this book is unique and enjoyable because of the inclusion of beautiful photos, informative charts, and graphs, and written in a language that is easy to read. The facts are also listed alphabetically, which makes it even easier to find information that is needed. This is a book that can be used as a reference for the cat owner to find information quickly since it's alphabetized, but it's also a book that one would enjoy reading cover-to-cover! I received an ARC from the author for an honest review.

THE PERFECT CAT BOOK! More than 86 million pet cats today are kept in forty-five million U.S. households. Now, from one of the most trusted cat care authors of the last twenty-five years comes the definitive reference for adopting, keeping, and maintaining a healthy, happy cat. **CAT FACTS: The Pet Parent's A-to-Z Home Care Encyclopedia** is designed to answer all your questions. How do I choose the right cat? What holistic help and preventive care should I give? Why do cats act the way they do, and what cat behavior indicates illness? What constitutes an emergency, and how/when can I safely treat my cat with home care and first aid? Inside you'll find: An alphabetical A-to-Z listing, with more than 200 entries and 160+ cute cat photos and illustrations, covering everything from abscesses and hairballs to whiskers and zoonosis Charts that list symptoms for a particular condition, the corresponding home care or first aid, the comparative veterinarian and holistic treatments, and preventive advice A poison first aid chart to save your cat's life A symptoms/conditions table that helps you identify what ailments might be bothering your cat Breed-At-A-Glance chart to compare personality, looks, care challenges and other issues when choosing your pedigreed cat A comprehensive, easy-to-use index that makes quick reference a snap Contact information for dozens of cat organizations and veterinary resources Accessible, yet comprehensive, **CAT FACTS** can be used with ease and trust. And doesn't your cat deserve the very best?

Muse Medallion Winner, Best Cat Health Book, Cat Writers' Association The Dr. Jim Richards Cornell Feline Health Center Veterinary Issues Award Winner, Sponsored by Cornell University's Feline Health Center "This is a 25-year compilation of information and prevention techniques that will serve cat lovers well. The author has distilled scientific information into practical language based on the expertise of many certified sources."
